## IV DMPS, NDF™ & Hyperbaric Oxygen: A Comparison Report

Rickey, 14 year old boy with Autism Spectrum Disorder. Challenge tests showed mercury levels were “off the charts”. He began a detoxification protocol with IV DMPS chelation and Hyperbaric Oxygen Therapy; 11 DMPS IV’s along with 10 HBOT per week done over a 3 month period. “Every time we tested him the mercury results remained high,” Says Rickey’s mom, Sharon.

“Then we decided to try NDF, NDF Plus, and Liver Life as my son’s heavy metal detox protocol. Every day after I gave Rickey his first NDF dose he would go in the HBOT chamber. We just had another challenge test and got our results back, and I am amazed! He has been on the full dose of NDF for just over a month and his mercury level has dropped to 4.6ppm, very close to the safe range!”

### DMPS challenge results after 11 DMPS IV’s & 10 HBOT’s per week, mercury is still high 3 months later:

Cadmium	0.4 ppm	<2 ug/g	_____
Lead	4.1 ppm	<4 ug/g	_____
Mercury	22 ppm	<4 ug/g	_____
Nickel	8.5 ppm	<12 ug/g	_____
Tin	1.1 ppm	<10 ug/g	_____

### DMPS challenge results after NDF’s (at full dose) with Liver Life & 10 HBOT’s per week 1 month later:

Cadmium	0.2 ppm	<2 ug/g	_____
Lead	0.5 ppm	<4 ug/g	_____
Mercury	4.6 ppm	<4 ug/g	_____
Nickel	7.4 ppm	<12 ug/g	_____
Tin	<dl	<1 ug/g	

**Rickey has shown improvement in processing information. He is more aware and asking questions about things happening around him. He is also grasping higher levels of math.”**

**-Sharon Patterson, mom to 14 year old Rickey**

**To Order Call: 888-635-9582**

**Fax: 949-305-8310**

**BioRay. The safe, effective, and natural choice since 1991.**

These statements have not been evaluated by the FDA.

This product is not intended to diagnose, treat, cure, or prevent any disease.

NDF™ patents pending.
